
Job Title: Full Stack Developer (React + Mobile)

Company: [Your Company Name]

Location: Remote / India-based preferred

Job Description:

We are looking for a passionate and skilled Full Stack Developer with strong expertise in frontend and mobile development. You will be working on modern, scalable applications that span across web and mobile platforms. The ideal candidate has experience building responsive UIs, working with cross-functional teams, and deploying secure, performant software using modern technologies.

Key Responsibilities:

- Develop and maintain responsive web and mobile applications using React, React Native, Kotlin, and Swift.
 - Collaborate closely with designers and backend developers to ensure smooth UI/UX.
 - Implement secure features such as biometric authentication and end-to-end encryption.
 - Work with cloud technologies such as Firebase and AWS.
 - Participate in Agile development and code reviews.
-

Required Skills:

- **Frontend:** React, Next.js, Svelte, Tailwind CSS
 - **Mobile:** React Native, Kotlin (Jetpack Compose), Swift (SwiftUI)
 - **Backend:** Node.js, Kotlin Spring, Firebase
 - **Database:** MongoDB, PostgreSQL
 - **Tools:** Docker, AWS, Git
 - Strong UI/UX understanding and experience with QR code integration is a plus.
-

Preferred Qualifications:

- Bachelor's degree in Computer Science or related field (pursuing is also acceptable).
- 1+ years of hands-on experience in frontend or full stack development.

- Strong portfolio or live project links (e.g., CardNest, Secretly, Tic Tac Toe).
-

Nice-to-Have:

- Experience with Bun, Monorepos, or modern tooling.
 - Contributed to open-source or personal projects hosted online.
 - Understanding of secure data transfer mechanisms.
-

How to Apply:

Send your resume, GitHub profile, and project portfolio to [your-email@company.com].
